

PART-TIME BEHAVIORAL INTERVENTIONIST

FosterAdopt Connect is an agency dedicated to providing foster and adopted children a stable, loving and nurturing family environment, by support and advocacy for abused and neglected children and the families caring for them.

Position Type: Part-Time, Evenings and Weekends

The Behavioral Interventionist (BI) Program at FosterAdopt Connect is an innovative, intensive program designed to help children who have experienced trauma heal in their family homes. Client's in the BI program struggle with behavioral and emotional management to the degree that their behaviors threaten the stability of their current placement. The main goal of the program is to provide assistance to both the parents and child, thus decreasing the need for short-term hospitalizations, long-term residential admittance, and/or adoption disruption. The Behavioral Interventionist assists with re-direction, teaching of replacement positive behaviors to the child, coaching, and role-modeling to the family how to address the child's behavior.

The program not only provides support and relief for the parents, it increases overall family functioning within the home. The BI provides and actively engages, within the home setting, neuro-stimulating activities with the child and works on trauma-informed activities to assist with the healing process. The Behavioral Interventionist also works with the client and family to increase child's functioning in daily living activities and regularly record's client's progress toward behavioral goals and objectives.

As the Behavioral Interventionist program continues to grow, we are excited to provide opportunities for skilled professionals who want to build careers in the field of behavior intervention. We are looking for big-hearted and motivated individuals who demonstrate flexibility, passion, and desire to make a difference in the lives of children and families.
